

COURSES

HYPERBARIC INSIDE OBSERVER

The Hyperbaric Inside Observer course is designed to prepare participants for safe and effective duties inside a hyperbaric chamber during treatment and training operations. The course provides essential knowledge of hyperbaric chamber systems, medical equipment used in pressurised environments, and patient monitoring under hyperbaric conditions. The course combines theoretical instruction with practical in-chamber experience, allowing participants to apply operational procedures in a controlled environment.

COURSE CONTENTS

1. Role of the Inside Observer
2. Patient Care Inside the Chamber
3. Safety Procedures
4. Chamber Dives
5. Hyperbaric Medical Equipment Demonstration
